	Any archer that failed to achieve a qualifying score at the NASP® National tournaments.	Any archer that failed to achieve a qualifying score at the NASP® National tournaments.

Qualified (primary priority for flight assignment)

Unqualified but Eligible (secondary priority for flight assignment)

Important Notes:

- **While we cannot guarantee flight spots for any group, every effort will be made to accommodate all registered teams and archers. Schools that are willing to accept any flight time greatly increase their odds of receiving flight assignments.**
- If your team qualifies, you **MUST** register and compete as a fully qualified team. This means at least 12 archers with at least 4 of each gender for bullseye and 6 archers with at least 2 of each gender for 3D. Registered teams that do not meet these criteria will be placed after qualified teams/individuals.
- Qualified individuals shooting on qualified teams should be registered on the team group roster (and not separated into an individual group).
- Qualified individuals shooting on unqualified teams should be registered on an individual group. (separately from the team group). They can/should be moved back to the team group after flight assignments are complete.
- If registering both qualified and unqualified individuals, qualified individuals should be registered in one individual group and unqualified archers should be registered in another individual group.
